Color Palette & Typography

Our visual foundations bring the Personal Facilitation Toolkit to life — bold, friendly and optimistic, designed to spark better conversations and brighter people.

A brighter foundation for better conversations.

Core Palette

A vibrant, balanced palette designed to feel playful, modern and human.

Dare Devil	Electric	Arctic	Royal	Gold	Pink	Canvas	Ink	Mist
#FF5B22	#3939FF	#AEE6ED	#DBB8FF	#F2BB05	#FF6BCB	#FAF6EF	#1F1F1F	#E6E6EA
Energy / Action	Primary / Focus	Calm / Clarity	Creativity / Support	Highlight / Optimism	Playful Accent	Background	Text / Contrast	Stroke / Surface

Palette Usage

Examples of how the color palette comes together across the product.

Backgrounds

Canvas for main backgrounds, Mist for subtle surfaces.

Accents & Highlights

Bold shapes and accents to draw attention and add delight.

Chart Colors

A consistent, recognizable set for data visualizations.

Interface Emphasis

Button →

Use Electric for primary actions and key interactive elements.

Typography

Google Fonts

Plus Jakarta Sans is our typeface — modern, friendly and versatile, with a playful yet professional feel.

Type Hierarchy

A clear and consistent hierarchy for all content.

H1	**Better conversations.**
H2	**A more human way to facilitate.**
H3	**Turn ideas into action.**
Body	The Personal Facilitation Toolkit helps you plan, run, and reflect on interactive sessions that bring people together and spark meaningful outcomes.
Caption	Tools, templates and guidance for brighter teams.
Button	Get started →

Typography Principles

1. **Strong hierarchy** — Clear structure helps people scan, understand and act.
2. **Friendly legibility** — Clean, open forms make everything easy to read.
3. **Minimal friction** — Simple, consistent styles keep the experience smooth and focused.

Personal Facilitation Toolkit

03 — Icon & Shape Language

A consistent visual grammar that makes our toolkit feel playful, human and clear.

Playful · Modern · Human

Core Shapes

The building blocks for our icons, characters and illustrations.

Flower / Blob
Friendly, playful and expressive.

Sparkle / Diamond
Highlight, celebrate and draw attention.

Rounded Bean
Organic and flexible.

Circle
Simple, versatile and balanced.

Semicircle / Arch
Structure and grounding element.

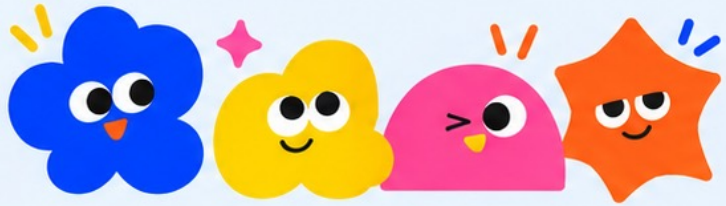

Speech Bubble
Conversation and feedback.

Rounded Card
Container for content and UI elements.

Pill
Buttons, tags and status.

Character System

Friendly, flexible characters built from our core shapes.

The Connector
Curious, friendly and optimistic.

The Listener
Warm, supportive and encouraging.

The Energizer
Playful, bold and full of ideas.

The Guide
Calm, confident and steady.

Simple eyes
Big, expressive eyes create instant personality.

Flat fills
Use solid, vibrant colors. No gradients or textures.

Rounded silhouettes
Soft, friendly shapes feel approachable.

Expressive but minimal
Small details go a long way (e.g. eyes, simple mouth, accents).

Icon Style

Clean, bold and friendly icons built from simple shapes.

Illustration Rules

Guidelines for creating illustrations, backgrounds and compositions.

1. **Use bold silhouette contrast**
Combine large, simple shapes with clear color contrast.

2. **Keep details minimal**
Focus on essential elements like eyes, mouth and small accents.

3. **Use playful overlap**
Layer shapes to create energy, connection and depth.

4. **Avoid realism and heavy shading**
No gradients, textures or realistic detail.

Do / Avoid

Examples of how to apply (and what to avoid) in our visual language.

Do — This feels right

Flat, simple and friendly

Playful composition with overlap

Clear, bold shapes and vibrant colors

Avoid — This doesn't fit

Gradients or glossy effects

3D or realistic rendering

Cluttered detail or thin lines

07 Component Principles

Guiding principles for our UI components.

Rounded and friendly
Soft shapes and friendly visuals create an inviting experience.

High clarity
Clean hierarchy, clear labels and familiar patterns.

Mobile-first touch targets
Designed for real-world use, with generous touch areas.

Accessible contrast
Meet accessibility standards with strong, readable contrasts.

Layout & Product Mockups

Key product layouts and screen structures designed for real facilitation scenarios.

Designed for real people. Real sessions.

Layout Principles

Clear visual hierarchy
Key actions and information are easy to find and understand.

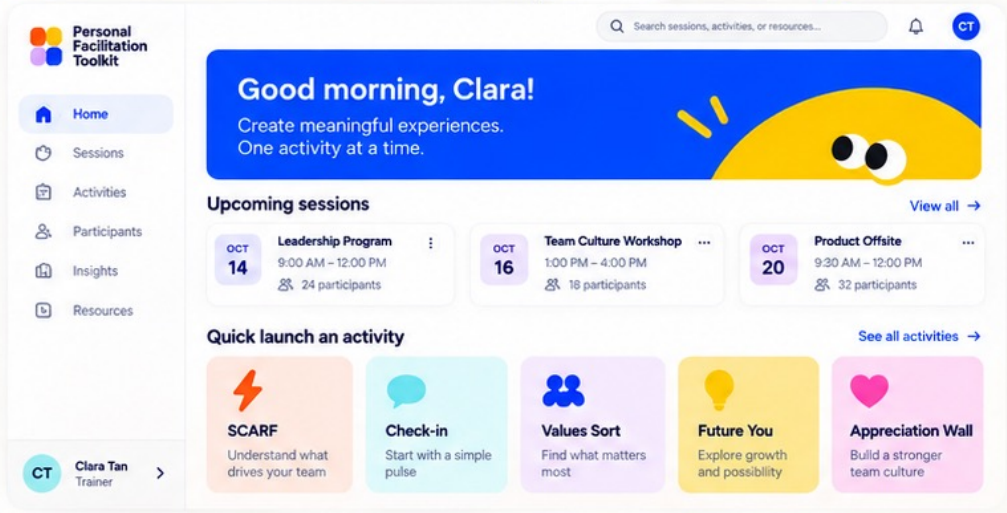

Generous spacing
Clean, open layouts reduce cognitive load and feel more inviting.

Desktop for facilitation
Richer tools and multi-panel layouts for trainers and teams.

Simple mobile flows
Focused, step-by-step experiences for participants.

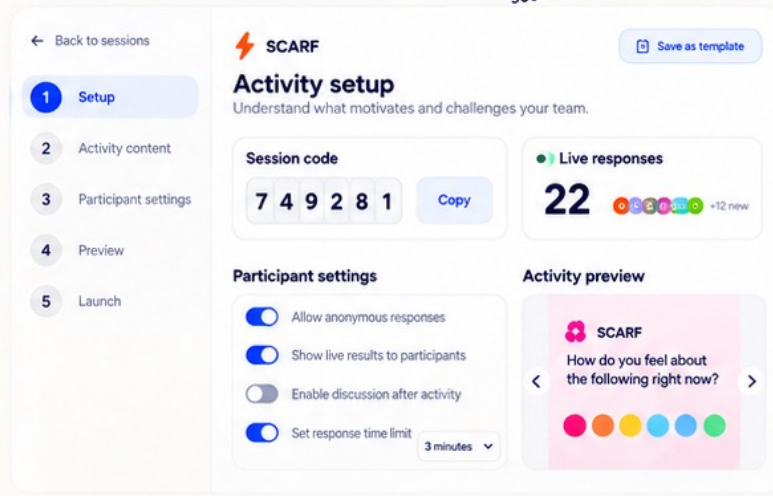

Trainer Dashboard (Desktop)

Everything you need to plan and run great sessions.

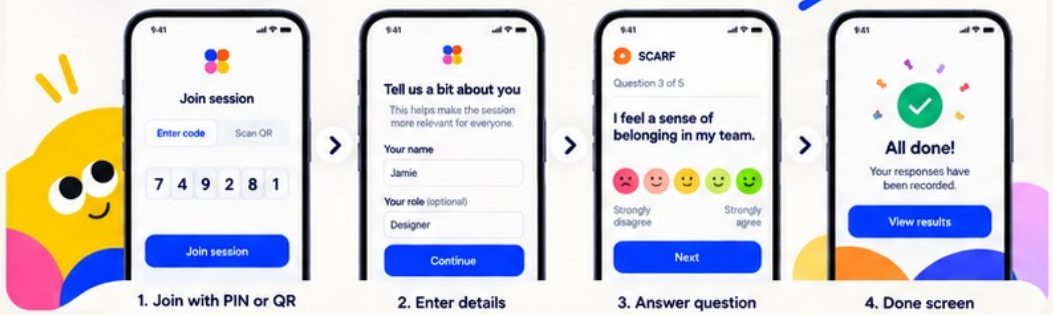

Session / Activity Management

Set up, launch and see live responses.

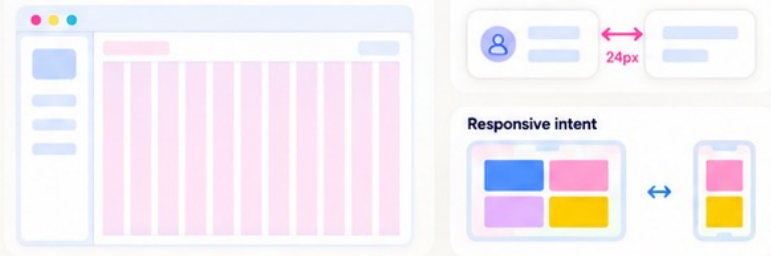

Participant Mobile Flow

A simple, focused journey from join to done.

Layout & Spacing Examples

Consistent, flexible layouts across desktop and mobile.

Designed for trainer control and participant simplicity.

Personal Facilitation Toolkit

06 — Data Visualization & Presenter Experience

Turn insights into meaningful conversations. Clear, friendly visuals help facilitators and participants see patterns, explore differences, and take action together.

Playful · Modern · Human

Data Principles

Readable at a distance
Clear hierarchy, bold shapes, and generous spacing.

Color with meaning
Consistent, accessible colors that communicate patterns and differences.

Comparison made easy
Aligned scales, consistent formats, and clear labels for quick understanding.

Friendly but precise
Playful visuals with accurate, trustworthy data representation.

Chart Styles

A consistent set of visualization styles for the Personal Facilitation Toolkit.
